Acknowledgment:

We extend our heartfelt appreciation to our editorial board, peer reviewers, authors, and readers. Your unwavering support and contributions have been instrumental in achieving this milestone. Together, we continue to advance the frontiers of life and social sciences research.

SUMMARY

The Insights-Journal of Life and Social Sciences (IJLSS) has achieved significant progress by securing indexing in leading scholarly platforms: Semantic Scholar, OpenAlex, R Discovery (by Editage), and Consensus. This advancement enhances the journal's visibility and accessibility, affirming its dedication to disseminating high-quality, interdisciplinary research across life and social sciences. These platforms are renowned for their rigorous selection criteria and broad academic reach, offering authors increased citation potential and academic recognition.

FROM THE EDITOR-IN-CHIEF

Since its inception in January 2023, the *Insights-Journal of Life and Social Sciences (IJLSS)* has been dedicated to fostering interdisciplinary research that bridges the life and social sciences. Our peer-reviewed, open-access journal serves as a platform for scholars in fields such as sociology, anthropology, psychology, criminology, political science, history, geography, social policy, social work, education, biology, chemistry, biochemistry, environmental science, public health, and literature. We are proud to announce that IJLSS is now indexed in several esteemed platforms: Semantic Scholar, OpenAlex, R Discovery (by Editage), and Consensus. These platforms are renowned for their rigorous selection criteria and broad academic reach, enhancing the discoverability and credibility of our published works.

• SEMANTIC SCHOLAR:

- An AI-powered research tool developed by the Allen Institute for AI, Semantic Scholar indexes over 200 million scholarly articles across various disciplines. It employs advanced machine learning techniques to extract meaning and identify connections within papers, offering features like automatic summarization, citation analysis, and topic modeling.

• OPENALEX:

- An open-source catalog of scholarly works, OpenAlex indexes over 250 million publications from approximately 250,000 sources. It provides detailed metadata on publications, authors, institutions, and research topics, supporting open science initiatives by offering free access to its data.

• R DISCOVERY (BY EDITAGE):

- An AI-powered literature search and reading platform, R Discovery offers personalized reading recommendations based on user interests, audio summaries of research papers, and supports multiple languages, enhancing accessibility. It integrates with reference managers like Zotero and Mendeley, allowing seamless organization of research materials.

- **CONSENSUS:**

- An AI-driven search engine, Consensus extracts and summarizes findings from scientific papers to answer research questions directly. It leverages natural language processing to identify and present consensus statements from peer-reviewed literature, aiding users in quickly understanding the prevailing scientific agreement on specific topics.

Inclusion in these platforms not only amplifies the visibility of our journal but also underscores our commitment to disseminating high-quality research. For authors, this translates to increased citation potential, broader dissemination, and enhanced academic recognition.

FROM THE PUBLISHER: HEALTH & RESEARCH-INSIGHTS

Established in 2020, Health & Research-Insights is dedicated to enhancing health and education through groundbreaking research, educational programs, and specialized services. Our endeavors encompass delivering exceptional clinical services, fostering continuous professional development, and promoting rigorous scientific research. The inclusion of IJLSS in esteemed indexing platforms aligns with our strategic vision to elevate the journal's global footprint and academic impact. These developments are not merely milestones but catalysts propelling us toward greater innovation and collaboration. We remain committed to supporting researchers, clinicians, and academicians by providing platforms that facilitate the exchange of knowledge and the advancement of life and social sciences. Our focus on open access ensures that valuable research is accessible to a global audience, fostering inclusivity and continuous learning.

CONCLUSION

The journey of the *Insights-Journal of Life and Social Sciences* is marked by a steadfast commitment to excellence, inclusivity, and innovation. As we continue to evolve, we invite scholars, practitioners, and students to contribute to and benefit from this vibrant academic community. Together, we can shape the future of life and social sciences, driving positive change and improving lives worldwide.
